Introduction :-

Curriculum is a composite of entire range of experiences the learner undergoes at a school/college. It is a systematic arrangement of sum total of selected experiences planned by school or college or defined group of students to attain aims of particular educational program.

Curriculum Nursing :-

Nursing curriculum is the learning opportunities (subject matter) & the learning activities (clinical experiences & practice) that the faculty plans & implements in various setting for particular group of nurses students for a specific period of time in order to attain the objectives.

Aim :-

The ultimate aim of nursing curriculum is to help the students do original & creative work develop & bring about holistic development of students personality - physical, intellectual, emotional, social & spiritual dimension.

Objectives of Curricular Committee :-

- 1) To develop personality of students holistically including cognitive, affective & psychomotor skills.
- 2) To help in deciding upgradation strategies for a program.
- 3) To ascertain the need of the revision of the course content.
- 4) To help in future development of the curricular material for continuous development.

Roles & Responsibilities of Curricular Committee :-

- 1) To provide leadership in curriculum development at the college.
- 2) To provide over site of all new courses & programs to ensure that academic standards are maintained.
- 3) Recommend requirements for general education.
- 4) Provide a forum for innovation in teaching & learning.

5). Review programs & courses in a systematic manner on regular basis to ensure that they are kept current & relevant.

6). Putting into practice the written curriculum that has been design in the syllabus courses & curricular guides.
