A camp for blood donation was organized in SSS MTNS, Vishnupuri, Nanded. The program was arranged by some concerned people and with Jijau Blood Bank. Before organizing the camp, an announcement was made to aware the people about the purpose of organizing the camp. People were asked to donate their blood so that it could be used to the poor people who need this but could not afford the expense. The medical team was included 5 physician doctors and 82 Nursing students. A lot of people especially the young people were present there.

The program started at 9:00 in the morning. Everyone was excited to donate his blood and participate to help the needy people. The Nursing students were sitting at distant places and all the people coming for donating blood were standing in a queue.

They came one by one to the students. They first wrote their name and age to keep a record of this program. After that, they analyzed the blood group and noted it. Then they started taking their blood. I also donated my blood enthusiastically because I wanted to help people. Several people became a part of that mission in a positive way.

In the end, when the donation process was being done, a doctor gave a motivational speech. He thanked all of us and encouraged us by telling us the benefits of blood donation. Students really wondered to hear this and decide to donate blood after a few months frequently. The doctor said that donating blood not only helps needy people but is also beneficial for our own health. The reason is that it triggers our liver to make more blood. The program ended at 2 o'clock in the afternoon.
